

**LEARNING  
TO SEE  
ARCHITECTURALLY**

## **INTRODUCTION**

This book was constructed during the 2020 covid-19 pandemic and was greatly inspired and co-written by Irsha Frietes. It is recommended for toddlers and those of you, who like to draw, doodle and dream about the built environment.

While the drawings in this book are monochrome and colored you are encouraged to experiment with pens, pencils and so on. It is also our intentions that you use the illustrations in the book to experiment with color and of course draw where necessary.

We hope that this book will be useful and inspirational for students, teachers, parents and their children, but – most importantly – that it will be fun to work with.

## **ABOUT THE AUTHORS**

Waylan Williams is passionate about good designs. He studied architecture design at the University of Salford and is currently a licensed sole practitioner architect in the Turks and Caicos Islands. Waylan partner Irsha Frietes is the CEO of Clean Homes 4 You and is the mother of two handsome boys Luiyel and Franklin.
